##### ■ ENVIRONMENTAL STEERING COMMITTEE FOR BOSNIA AND HERZEGOVINA

On July 11, 1998 in Szentendre, Hungary, both entity governments signed a Memorandum of Understanding between the Federation of Bosnia and Herzegovina and Republika Srpska concerning the establishment of an Environmental Steering Committee. The Memorandum of Understanding acknowledges that:

- Environmental issues do not recognise the boundary between the Entities, and environmental problems are not constrained by man-made boundaries;
- There is an urgent and important need to find solutions to environmental problems; and
- The Entity governments recognise the need for a mechanism for inter-Entity cooperation.

Four representatives from each entity are voting members of the ESC. "The task of the Committee is to coordinate the parallel work on the level of the entities in the area of international environmental agreements according to their procedures and to present the results for the further procedure to the common (state) authorities."
