

THE REGIONAL ENVIRONMENTAL CENTER  
*for Central and Eastern Europe*

UNITED NATIONS DEVELOPMENT PROGRAMME  
GLOBAL ENVIRONMENT FACILITY

**Regional Project Capacity Building for Improving the Quality of GHG Inventories (Europe/CIS region)  
Sixth Regional Workshop**

**IMPROVEMENT OF NATIONAL INVENTORY SYSTEMS AND NATIONAL GHG INVENTORIES**

**REC, Szentendre, Hungary  
May 10-12, 2006**

### *Agenda*

#### **Objectives**

This is the sixth workshop under regional project RER/01/G31. The workshop will serve as a useful forum for information exchange within the region and assist countries in improving the quality of their national inventories. The workshop will provide an opportunity to exchange information, present achieved results and profit from experience of Annex I countries. The workshop also seeks to build the capacity of national inventory experts. The main goal of the workshop is to assist countries in completing immediate objectives of the project. The main objectives are to continue with training on implementation of Good Practice elements in National GHG Inventory Systems, particularly:

1. Presentation of countries; progress achieved, lessons learned, success stories
2. Assessment of countries **National Strategies and QA /QC programs**, recommendations for future
3. Assessment of countries **National Manuals of Procedures and Archiving systems**, recommendations for future
4. Regional review round findings, lessons learned
5. Project key sources - improvement of emissions
6. Awareness activities, awareness materials
7. Follow up activities, links

#### **Presentation of key products**

Space will be allocated in the conference room for the countries to present products drafted under the [regional project](#) and other relevant reports which could be of interest to the participants. All countries are invited to display sample copies of their products on the table to demonstrate the progress they have made. This product forum should serve to inspire the group to complete their products.

## Session II (Peer) review of National Inventories, - regional round and Quality Improvement of Emission Estimates for project key sources

Activity 1.4.5 Establish in-country technical peer review mechanism.

IO4 Improved methodologies and EFs; Output 1.1: Data collection strategies improved

Output 1.2: Data gaps reduced,

Activity 3.2.3: Identify appropriate methods using GPG decision trees

Chair: M. Steinemann

K. Mareckova, UNDP

### Regional Peer review round – summary, lessons learned

Round table

#### Energy; Mobile sources, Fugitive emissions

O. Agafonova, Uzbekistan Documentation of developed national emission factors (gas operations) 5-7 min

N. Parasiuk, Ukraine Gas transport

V. Idrissova, Kazakhstan **Synthesizing report Oil & gas**

Discussion

B. Islami, Albania

Transport emission improvements in Albania

N. Markovska/ M.

#### **Synthesizing report Transport**

Todorovski, Macedonia

Discussion

12:30 - 13:30

Lunch

### 13:30 – 15:30 Session II continues

Chair: M. Steinemann

#### Agriculture – Enteric Fermentation and Waste - landfills:

A. Hublin, Croatia

CH<sub>4</sub> emissions from Waste Disposal Based on Tier 2 Method

P. Tozalkyan, Armenia

#### **Synthesizing report Agro**

Discussion

T. Tugui, Moldova

#### **Synthesizing report Waste**

Discussion

M. Steinemann

Wrap-up

15:30 – 16:00

Coffee break

### Session III Uncertainty management, Archiving systems

16:00 – 17:30

Immediate Objective 1: Strengthened institutional arrangements for compiling, archiving, updating and managing GHG inventories

Chair: K. Mareckova

M. Tichy, Czech Rep.

Uncertainty – methodological Issues 20 min

Discussion

J. Skakala, Slovakia

Inventory archiving systems, Demonstration of Software tools

60 min

Discussion

M. Tichy, Czech Rep.

Wrap up
